To whom it may concern,

TIEC, Inc. is a technical service organization specializing in providing technical support services to the petroleum and natural gas industry.

This letter will confirm that TIEC, Inc. was contracted by HOOKS INDUSTRIAL, INC. located in Corpus Christi, Texas to develop and implement a quality management system and to obtain certification by the American Petroleum Institute under API Specification Q1: *Hooks Industrial Inc. is an international provider of rotating equipment. The product lines include pumps, compressors, turbines, control valves, mechanical seals and replacement spare parts; the precision machining of product from samples or proprietary drawings provided by customers.*

The development of a Quality Manual and applicable procedures that detail the steps needed to produce work product at a level approved by the American Petroleum Institute, along with all required documents and forms are in progress.

HOOKS INDUSTRIAL, INC. anticipates compliance of their Quality Management System to the applicable requirements of API Specification Q1. Subsequently, they have the full support of TIEC, Inc. staff to maintain certification and licenses.
